U. S. *Bureau of foreign and domestic commerce (Dept. of commerce)* ... The pottery industry ... 1915. (Card 2)

This report is the result of an investigation, made in pursuance of an act of Congress, approved August 23, 1912, of the cost of production, profits of manufacturers, wages, working hours, and other conditions of employment in the pottery industry. The field studies in the United States and in foreign countries, the compilation of the statistical tables, and the presentation of the results were supervised by Mr. Frank J. Sheridan, special agent of the bureau.

L 13-190

Library, U. S. Bur. of Labor Statistics

U. S. *Bureau of labor statistics.*
The "Bureau of labor" was established in the Dept. of the interior under act approved June 27, 1884. It was constituted the "Department of labor" under act of June 13, 1888. It was again made the "Bureau of labor" in the Dept. of commerce and labor under act of Feb. 14, 1903; and the "Bureau of labor statistics" in the Dept. of labor under act of March 4, 1913.
The title of the chief officer of the "Bureau," 1884-1888, 1903-1913; and of the "Department," 1888-1903, was "Commissioner of labor." Beginning with March 4, 1913, the title has been "Commissioner of labor statistics." The numbering of serial publications has been continuous. Therefore publications prior to March 4, 1913, are entered under the heading "U. S. Bureau of labor," and publications since that date under the heading "U. S. Bureau of labor statistics."

Soil survey reports ... Series 1923–
Washington, U. S. Govt. print. off., 1928–
v. plates, maps (part fold.) tables. $23\frac{1}{2}^{cm}$.
In cooperation with the state agricultural experiment stations.
Before 1923 series, these reports were issued by U. S. Dept. of agriculture. Bureau of soils, in an annual bound volume with title: Field operations of the Bureau of soils. Unnumbered reprints were also issued. Beginning with 1923 series, no bound annual volume is issued. The reports for each year are consecutively numbered, the last number for each year being conspicuously marked.
From 1923–June 1939 issued by Bureau of chemistry and soils. On July 1, 1939 the work was transferred to the Bureau of plant industry.

U. S. *Bureau of prohibition.*

Established by act approved March 3, 1927 as the Bureau of prohibition, Treasury department. By act approved May 27, 1930, the enforcement of the penal provisions of the National prohibition act was transferred to the Department of justice, the administrative division being designated the Bureau of prohibition, in the Department of justice. The Bureau of prohibition in the Treasury department (1930–) became the Bureau of industrial alcohol. For publications of the two bureaus see

U. S. *Bureau of soils.*

... Bulletin no. 1–96. Washington, Govt. print. off., 1895–1913.

96 no. illus., plates, maps. 23cm.

Issued by U. S. Dept. of agriculture, Bureau of soils.

No more published. However, a reference was found to nos. 98 and 99 in U. S. Dept. of agriculture, Office of secretary, Report no. 100, p. 12–13, 1915 (1Ag84Rp) The subject matter for no. 98 was later published in U. S. Dept. of agriculture, Department bulletin no. 54, The topographic features of the desert basins of the United States with reference to the possible occurrence of potash, by E. E. Free. The subject matter for no. 99 was later published in U. S. Dept. of agriculture, Department bulletin no. 122, The inorganic composition of some important American soils, by W. O. Robinson. No reference was found to a no. 97.

U. S. *Bureau of soils.* ... Bulletin no. 1–96 ... 1895–1913. (Card 2)

Continued in the Bulletin of the Dept. of agriculture.

CONTENTS.—no. 1–3. Soil moisture. A record of the amount of water contained in soils during the months of May, June, July, 1895. 1895.—no. 4. Methods of the mechanical analysis of soils and of the determination of the amount of moisture in soils in the field. 1896.—no. 5. Texture of some important soil formations. 1896.—no. 6. An electrical method of determining the moisture content of arable soils. By Milton Whitney [and others] 1897.—no. 7. An electrical method of determining the temperature of soils. By Milton Whitney and L. J. Briggs. 1897.—no. 8. An electrical method of determining the soluble salt content of soils, with some results of investigations on the effect of water and soluble salts on the electrical resistance of soils. By Milton Whitney and T. H. Means.
